Sprinkler system inspection, testing, and fee requirements

Please note that for fire protection for building and/or construction application, building/construction plans and fees must be submitted to the Fire Marshal's Office prior to performing any sprinkler system work activity and before sprinkler system inspection. Fire sprinkler plans must be reviewed and approved and a permit issued from the Fire Marshal's Office prior to performing any work on the sprinkler system.

Sprinkler breakdown

If there are 11 or fewer sprinkler heads for the project, a copy of "as-builts" must be submitted to the Fire Marshal's Office with a hydrostatic testing and visual inspection fee of \$25.00. The hydrostatic test is performed at system working pressure for 2 hours. No plan review fee will be assessed.

If there are 12 or more sprinkler heads for the project plans must be submitted to the Fire Marshal's Office with a hydrostatic testing and visual inspection fee of \$25.00 and a plan review fee of \$50.00. The hydrostatic test is performed at 200 psi for 2 hours unless the sprinkler system cannot be isolated, then the hydrostatic test will be performed at system pressure for 2 hours.
